[Boat Description:](#)

This Lagoon 450 F catamaran for sale is fully equipped and offers all the comfort needed for luxurious long-term cruising. Designed for complete autonomy, it allows you to live off-grid for extended periods while exploring remote, untouched destinations.

In addition to its extensive standard equipment, this Lagoon 450 F features high-end upgrades that make it an exceptional liveaboard or bluewater cruiser. It includes all-electric winches, a high-capacity watermaker, generator, and air conditioning in every cabin for maximum comfort. Maneuvering is a breeze with a bow thruster and dual plotters at the navigation station.

The advanced solar power system consists of 9 panels with independent switches and monitoring, 4 mounted on the superstructure (160W each) and 5 at the rear (445W each), totaling an impressive 2225W. Energy storage is handled by two 3000W inverters and four 200Ah lithium batteries (2500W capacity), ensuring reliable off-grid power. Additional features include masttop cameras (4-in-1), a bad weather cockpit cover, sun protection for both the outdoor saloon and foredeck, an alarm system, fishing gear with rod holders, and a large BBQ grill for outdoor cooking.

Sail inventory includes a mainsail and furling genoa, as well as light-wind sails: Code 0, Gennaker (176m²), and a Spinnaker (206m²) with a dedicated pole, making this Lagoon 450 F ready for serious ocean sailing or relaxed coastal cruising.
