### Boat Description:

The Sunreef 60 Power Electric is a luxurious eco-friendly catamaran that combines advanced technology with elegant design. Equipped with electric propulsion systems, it offers a smooth and sustainable cruising experience. The sleek exterior is matched by a spacious interior, perfect for both long voyages and short getaways. The main deck features seamless flow between indoor and outdoor living spaces, with large windows for natural light and stunning views.

Inside, the Sunreef 60 offers a variety of layout options, with multiple staterooms and en-suite bathrooms to ensure comfort and privacy. The fully equipped galley includes top-of-the-line appliances and ample storage, ideal for onboard meals. The vessel also includes advanced navigation and communication systems for safe and efficient operation.

Perfect for leisure cruises or charter, the Sunreef 60 Power Electric offers an unforgettable experience with its sustainable design and luxurious amenities.

## Full Specification

### Layout & Accommodations

The Sunreef 60 Power Electric offers Eco Version or Classic Version

Has a variety of layout options with spacious and well-appointed staterooms, each with en-suite bathrooms.

The luxurious design is tailored to provide maximum comfort and privacy, ideal for extended cruises or leisure charters.

Large windows offer an abundance of natural light and panoramic views from the main saloon.

### Galley

The galley is fully equipped with state-of-the-art appliances and ample storage space.

It is designed for ease of use and efficient meal preparation, offering everything needed for onboard dining experiences.

### Deck & Equipment

The deck features vast outdoor living areas, including a large aft cockpit and a sunbathing area at the bow.

It also offers plenty of space for water activities, with well-positioned winches and controls to ensure a safe and functional deck area.

### Electronics & Navigation

The Sunreef 60 Power Electric is equipped with advanced navigation and communication systems for efficient and safe operation, ensuring smooth voyages on any waters.

The vessel offers all necessary instruments for long-range cruising and real-time weather updates.

### Electrical, Power & Plumbing

Powered by an innovative electric propulsion system, the vessel is designed with eco-friendly energy solutions.

The onboard power system ensures sufficient energy for extended cruising without reliance on traditional fuel sources.

### Engine & Mechanical

The boat features a high-performance electric propulsion system that offers smooth and quiet sailing.

The system is designed to maximize energy efficiency while reducing the vessel's environmental impact, contributing to a sustainable cruising experience.

CLASSIC VERSION 2 x 300 HP - 2 x 850 HP Engines

### Sails & Rigging

The Sunreef 60 Power Electric does not have traditional sails as it is a power catamaran, relying on electric propulsion rather than wind power.

It is designed with a sleek hull and modern propulsion technology to provide optimal performance.

### Additional Information

This eco-friendly catamaran is ideal for long-term cruising or charter, offering both luxurious living spaces and sustainable technology.

It combines high-end features with a commitment to environmental sustainability, making it the perfect choice for eco-conscious travelers.
