Boat Highlights

The Leopard 43' is an excellent compromise between comfort, safety and performance. The standard hardtop, ICW friendly rig size of 63' and strong construction make this model one to consider for world cruisers and coastal cruisers alike. Like all Leopards, the focus is on ease of maintenance so you can enjoy your time on-board instead of fixing things. Only 20 "owners version" were built, and these models are true collector's items and rarely available
